“Whatever is destined not to happen will not happen,  
try as you may. Whatever is destined to happen will  
happen, do what you may to prevent it. This is certain.  
The best course, therefore, is to remain silent.”

Ramana Maharshi

Cancer **Diseases**: There are two ways that Natal shows cancer diseases.

**1)** Direct connection :  $\text{♀}/\text{♂} = X$  (Body Parts that are affected)

even worse if in higher harmonics  $\text{♀} = \text{♂}$  (exact to each other)

That can be too:  $X/\text{♂} = \text{♀}$  or  $X/\text{♀} = \text{♂}$

**2)** Indirect connection :  $\text{♂}/X = \text{♀}/Y$  ,  $X/Y = \text{♀}/\text{♂}$

Of course there are other meanings of neptune pluto connections. For

example, Bill Clinton has  $\text{♀}_n/\text{♂}_n = \text{♀}_n$  planet-picture. For him it means then "secret love affair".

$\text{♀}_n/\text{♂}_n = \text{♀}_n$  It may also be that shown to other person in the family e.g. (  $\text{♀}$  is wife in male Natal, husband in female Natal, mother , daughter and sister ) suffers from cancer. Because they are all Venus ,e.g., Melania Trump first example in this work.

Of course there are quite harmless even very good meanings has  $\text{♂}/\text{♀}$  planet picture. Because all things (including the planets) have negative and positive characteristics. Therefore only malefic or only benefic does not exist.

<sup>2</sup> Wu Xing (Five Elements)

Used :

1-Sidereal zodiac (Krishnamurti Ayanamsa), Mean Node. 23°45'56" for Year 2000. Speed of precession is 50.2388475.

2-Progressions Keys :

Tertiary I: 1 sidereal day = sidereal month (27.321661 days)

Rate :  $0.99726966 / 27.321661 = .036501062655012$

Tertiary II (Minor) : 1 sidereal month = 1 sidereal year

Rate :  $27.321661 / 365.25636042 = .074801328493181$

Secondary Progression : 1 sidereal day = 1 sidereal year

Rate :  $0.99726966 / 365.25636042 = .002730327978008$

Zet Settings :

a sidereal day (23h 56m 4.091s)

a sidereal month (27d 7h 43m 11.47s)

a sidereal year (365d 6h 9m 9.5s)

3-Transit, Solar, Lunar, Progressed Lunar are used.

4-Last NewMoon before the event.

One can take last moon phase before the event too.

5-All 2<sup>n</sup> Harmonics

If the birth time is accurate to the second : Harmonic 4096 and higher harmonics,

If the birth time is accurate to the minute : Harmonic 4096,

If the birth time is accurate to within 5 minutes : Harmonic 1024,

If the birth times are rounded to quarter of an hour and if the birth times are from France or Italy, or when the birth time is corrected by an astrologer : up to Harmonic 256.

Because many astrologers correct the birth times, which no correction needs or needs minimal correction. Because those working with Harmonic-1 usually do not need minimal corrections either.

Not considered or examined because of keep the overview, but otherwise also need to be checked, are :

- a-Progression to progression(e.g. Secondary to Tertiary or Solar to Tertiary and vice versa)
- b-Solar to Lunar and vice versa
- c-Midpoints of two planets in two different progressions (e.g. Solar Pluto/Lunar Neptune)
- d-Sums and differences of Planets
- e- Positions of Node (Mean Node) : I think they also play a role, especially if cancer is inoperable.

Since the Western and Indian rulers are wrong, I would like to examine the Chinese rulers, whether they come into question.  
What I use in this work are they days-rulers, but I take them as AC Ruler.

☿ 14° ♍ - ♊ - 13° ♎  
♈ 14° ♎ - 13° ♏  
♉ 14° ♏ - ♋ - 13° ♌  
♊ 14° ♌ - 13° ♍  
♋ 14° ♍ - ♈ - 13° ♎  
♌ 14° ♎ - 13° ♏  
♍ 14° ♏ - ♉ - 13° ♌  
♎ 14° ♌ - 13° ♍

Hours-rulers would be :

Wood 3-7

Fire 9-13

Metal 15-19

Water 21-01

Earth 1-3,7-9,13-15,19-21

But in this work, it's not about AC rulers, rather whether ☿/♊ is cancer axis or not.

If you want after (not previously) being diagnosed medically, with this technique you can find the times that deteriorations and improvements.

I think it's irresponsibly, with current astrological knowledge (not even they know the right ruler) some astrologers diagnose the diseases and prescribe homoeopathic remedies or what ever. Such self-proclaimed astrologers harm astrology much more than others.
